Volume 168 Issue 1 | BMJ Military February 2022

Highlights
1 Improving research and initiatives to support veterans and their families
A Finnegan, J Breeze

Editorials
1 Perinatal mental health and well-being of serving women and women veterans: a study protocol
J Kelly, C C Jones, J Jomeen, C Martin

5 Importance of understanding military veterans’ perspectives of ‘the right support’ provided by an NHS-commissioned military veterans’ mental health service
N Skellon, A Barrett, J Hacker Hughes, J McGarre

Original research
9 Predictors of not working among treatment-seeking UK veterans: a cross-sectional study
L J Hendriks, J Ross, C Armour, D Murphy

15 Mental health and suicidal ideation in US military veterans with histories of COVID-19 infection
P Na, J Tsai, J Harpaz-Rotem, R Pietrzak

20 Mental health treatment experiences of commonwealth veterans from diverse ethnic backgrounds who have served in the UK military
E J Pearson, J Baumann, D Murphy

25 Postservice lower limb amputation in Scottish military veterans
B P Bergman, D F Mackay, J P Dell

29 Exploring the impact of COVID-19 and restrictions to daily living as a result of social distancing within veterans with pre-existing mental health difficulties
D Murphy, C Williamson, J Baumann, W Busuttil, N Fear

34 Veterans Universal Passport: a pilot of a health and social care record for UK ex-service personnel
L R Godier-McBard, M Fossey

38 Comparing the profiles of UK and Australian military veterans supported by national treatment programmes for post-traumatic stress disorder (PTSD)
D Murphy, A Howard, D Forbes, W Busuttil, A Phelps

43 Childhood adversities in UK treatment-seeking military veterans
J Ross, C Armour, D Murphy

49 Critical analysis of the Armed Forces Covenant Trust Aged Veterans Fund
L C G Di Lemma, A Finnegan, S Howe

57 The Map of Need: identifying and predicting the spatial distribution of financial hardship in Scotland’s veteran community
M D Kieran, M Rodrigues, F E Mann, P Stretesky, M A Defeyter

64 Being a woman, being a soldier, being a mother: a qualitative analysis of perceptions of pregnancy on working lives of women in the Spanish Armed Forces
S Hossain-López, D Ruiz-Berdin

70 Gender differences in barriers to mental healthcare for UK military veterans: a preliminary investigation
L R Godier-McBard, C Gable, A D Wood, M Fossey

76 Variation in health service use by veterans with an accepted disability of post-traumatic stress disorder who had a service record post 1975: a cluster analysis

MORE CONTENTS ➤
Comparing negative health indicators in male and female veterans with the Canadian general population
A L Hall, J Sweet, M Tweel, M B MacLean

National Health Service interventions in England to improve care to Armed Forces veterans
A Bacon, E Martin, R Swarbrick, A Treadgold

Invited reviews
UK military veteran-friendly GP practices
R G Simpson, J Leach

Building resilience in US military families: why it matters
A G Rossiter, C G Ling

Systematic review
Veteran help-seeking behaviour for mental health issues: a systematic review
R Randles, A Finnegan
