Correspondence.

A COLLECTION OF ORDERS AND MEDALS FOR THE ROYAL ARMY MEDICAL CORPS MESS, LONDON.

TO THE EDITOR OF "THE JOURNAL OF THE ROYAL ARMY MEDICAL CORPS."

Sir,—I have thought for a long time that a collection of "Orders and Medals" would form an object of great interest in our London mess. Many brother officers, both on the retired list and still serving, may desire to present something to their head mess, but are deterred perhaps by the price of a suitable piece of plate. A medal need not be costly, and would be definite proof of their interest in their mess. A record would, of course, be kept of donors and their gifts. As the suggester of the idea, I shall be delighted to make a beginning.

I am, &c.,
A. B. Cottell,

November 21, 1913. Lieutenant-Colonel (Retired).
