constituted by "606" compounds as they are found to have a more lethal and permanent spirochaeticidal effect than the employment of "914" compounds alone. A combination of novarsenobillon and arsenobillon has been found to give the best permanent therapeutic results.

AMETOX (May and Baker).—A specially purified sodium thio-sulphate, supplied, exsiccated and sterile, in ampoules. This is one of the most valuable drugs, and no venereal clinic is complete without a supply.

It is employed in all cases of arsenical, mercurial and bismuth poisoning.

The powder is dissolved in five cubic centimetres of sterile distilled water and injected intravenously in doses of 0.45 gramme to 0.9 gramme, repeated daily or on alternate days according to urgency of any particular case.

The effect on arsenical dermatitis and jaundice is striking, and the withholding of this drug in severe cases of this nature would be a grave responsibility for those concerned.

The preparation Ametox fully justifies all the claims made for it.

THE ORGANIZATION OF THE FRENCH ARMY MEDICAL SERVICE IN THE FIELD.

TO THE EDITOR OF THE "JOURNAL OF THE ROYAL ARMY MEDICAL CORPS."

Sir,—Having read, with much interest, Major Stirling's contribution entitled "The Organization of the French Army Medical Service in the Field," which appeared in the August number of our magazine, may I suggest that he be asked to publish what one might describe as a "key," for the benefit of those of us who are ignorant on the matter. Such a key would indicate, where possible, the units of the British Army corresponding to the French ones mentioned, the strength of French units and formations mentioned, the bed capacity, etc.

I feel sure that a key would increase the value and interest of the article, and hope that Major Stirling will see his way to amplifying it in some such way as I suggest.

I am, etc.,

Sept. 30, 1925.

H. S. BLACKMORE,
Major R.A.M.C.
EDITORIALNOTICES.

The Editor will be glad to receive original communications upon professional subjects, travel, and personal experiences, etc. He will also be glad to receive items of news and information regarding matters of interest to the Corps from the various garrisons, districts, and commands at home and abroad.

All such Communications or Articles accepted and published in the “Journal of the Royal Army Medical Corps” will (unless the Author notified at the time of submission that he reserves the copyright of the Article to himself) become the property of the Library and Journal Committee, who will exercise full copyright powers concerning such Articles.

A free issue of twenty-five reprints will be made to contributors of Original Communications, and of twenty-five excerpts of Lectures, Travels, Clinical and other Notes, and Echoes of the Past.

Any demand for reprints, additional to the above, or for excerpts must be forwarded at the time of submission of the article for publication.

Matter intended for the Corps News should reach the Editor not later than the 15th of each month for the following month’s issue. Notices of Births, Marriages, and Deaths are inserted free of charge to subscribers. All these communications should be written upon one side of the paper only; they should by preference be typewritten; but, if not, all proper names should be written in capital letters (or printed) to avoid mistakes, and be addressed: The Editor, “Journal of the Royal Army Medical Corps,” War Office, Whitehall, S.W.1.

MANAGER’SNOTICES.

The Journal of the Royal Army Medical Corps is published monthly, a volume commencing on 1st July and 1st January of each year.

The Annual Subscription for the Journal and Corps News Supplement is £1 (which includes postage), and should commence either on 1st July or 1st January; but if a subscriber wishes to commence at any other month he may do so by paying for the odd months between 1st July and 1st January at the rate of 1s. 8d. (one shilling and eightpence) per copy. (All subscriptions are payable in advance.)

Single copies can be obtained at the rate of 2s. per copy.

The Corps News Supplement is also issued separately from the Journal, and can be subscribed for at the rate of 4s. (four shillings) per annum, including postage. All subscriptions are payable in advance.

Subscriptions for the Corps News Supplement separate from the Journal cannot be accepted from Officers on the Active List unless they are also subscribing to the Journal.

Single copies can be obtained at the rate of 6d. per copy, excluding postage.

Cheques or Postal Orders for Subscriptions, etc., should be made payable to the “Hon. Manager, Journal R.A.M.C.” and crossed “Holt & Co.”

All communications should be addressed to The Hon. Manager, “Journal of the Royal Army Medical Corps,” War Office, Whitehall, S.W.1.

All Applications for Advertisements to be made to—

G. STREET & CO., LTD., 8, SERLE STREET, LONDON, W.C.2.
ERRATA.

In the September number, Vol. XLV, No. 3. On page 200, line 7, last row of figures, for 0·5 read 0·2.

On page 204, line 5, under D the figures should be \( \frac{0.8}{0.8} + 0 \); and in line 8 insert (D) before the word "Note."

In the October number, Vol. XLV, No. 4. On page 267, under (3) Cart I, print (a); under Cart II print (b).

On page 268, the figures for 3 hours should be \( \frac{0.2}{0.05} \).

On page 268, the figure for 18 hours should be 0·05.

On page 269, (4) B, after 1 p.p.m. insert \( \text{Cl}_2 + \frac{3}{4} \text{NH}_3 \).

The article on "Out patient Treatment in the Army," which appeared in the last issue of the Journal, volume xlv, p. 375, was not written by Major Ritchie, but was contributed by a correspondent.
